66 After completing my undergrad, I knew I wanted to pursue an MBA, but was not sure from which university. Concordia stood out with their involvement with UFCU and organizations that are important to me.

Through a partnership with UFCU, Concordia allowed me to achieve my goal of getting an MBA while continuing to work full time. Concordia continues to help the organization I volunteered for, Prospanica, in their quest of empowering others like me to pursue higher education.

I have felt an incredible amount of support not only from family and friends, but also from my UFCU family and Concordia professors and staff. I am most pleased with how well the MBA program focuses on improving leadership skills in the various crucial areas of a business.”
